JAZZ PHOTOS - DIGITAL CATALOGUE

All the original digital images listed here and appearing on the Artist pages and Festival Reviews of <https://www.jazzword.com> have been made since 2010 by Susan O'Connor. All earlier performance portraits (1980 through 2009) were shot in BW film and are listed in the separate *Jazzword BW Catalogue*.

All digital originals are shot in colour JPG mostly at 3200 or 1600 ISO to try to accommodate low-light situations. Some are converted to black and white for better online display; otherwise, post-processing is limited. Image resolution on this site ranges from 96-300 dpi. Embedded File Info provides relevant date and location details, along with licensing and copyright information. All images listed and appearing on www.jazzword.com are © Susan O'Connor whose performance portraits may not be legally reproduced without written permission from the photographer.

There are far more images in the Jazzword archive than are uploaded to this websites. Try searching the alphabetical index in the Artists or Reviews sections as well as under Festivals. Artists without individual Artist Pages on *Jazzword.com* may often be found with those musicians or groups in which they played. Please inquire if you need more choices of personnel, content, sizing, resolution or colour, for example for licensing.

For reproduction and licensing inquiries, please contact Ken Waxman/Susan O'Connor at newjazzword@gmail.com or Cynthia Sesso at www.ctsimages.com in Los Angeles. Fees depend on the use and user (e.g. musicians) and published credit is requested along with electronic or hard-copy samples or links to the finished product in which Susan O'Connor's images are reproduced.
